Description of Issue:

The Lower cable cutter will not install onto the aircraft base. Request by Leonardo for width of base does not match existing product design. Dart asked Leonardo to provide original definition but have not provided it yet. In order to continue shipments, the LH Lower cutter body D4842-3 and RH Lower cutter body D4842-4 that make part of the D4842-041 need to be revised to shave 0.005" off the base interface
 ** Note that this change needs to be communicated to Leonardo by Dart Quality through a Proposal for Change Request and it must be approved by Leonardo prior to implementing **
